SUMMARY

Highly motivated Self-Taught Frontend Developer with a strong foundation in building clean, responsive, and high-performance web applications. Recognized for excellent self-learning abilities and an analytical approach to problem-solving. Proficient in React, & SASS, with hands-on experience integrating Firebase and EmailJS for functional user interfaces. Skilled in modern Git/GitHub workflows and dedicated to continuously mastering new technical structures in remote development environments.

PROFESSIONAL EXPERIENCE

01/2026 – Present

Freelance Frontend Developer

Remote / Sri Lanka

Self-Employed

- Developed responsive and modern web interfaces using **React.js** & **SASS** based on user requirements.
- Integrated **Firebase** for backend services, data management, and user authentication.
- Implemented working contact forms using **EmailJS** and smooth UI animations using Framer Motion.
- Managed project source code efficiently using **Git** and **GitHub**, deploying final products successfully on Vercel.
